**NOTICE TO THE MARKET**

**KLABIN S.A.** ("Klabin" or "Company"), hereby informs its shareholders and the market in general that is actively working on preventive countermeasures to mitigate the spread of the Coronavirus (COVID-19) among its employees and the community. In addition to the reinforcement of the hygiene protocol and disclosure of relevant information through its communication channels, Klabin stands aligned with the general guidelines issued by the World Health Organization (WHO), and among the overall measures adopted by the Company, are the following:

- Cancellation of international travels and restriction of domestic ones;
- Cancellation of internal events;
- Routine flexibilization and remote working granted to various professional groups, such as those who have recently returned from travels abroad;
- Alternation of shifts among employees (alternated shifts with lesser exposure and smaller agglomeration);
- Employees with symptoms, in accordance to the protocol of the governing bodies, must remain at home, working remotely, and must look for medical advice;
- Replacement of clients and providers visits and in-person meetings for video conferences or conference calls;
- Increased hygienization frequency of every working environment.

Klabin remains alert to the potential effects on its production, logistics and sales activities, following official guidelines and also through the dialogue with local authorities within the States and Municipalities it operates. In addition, the Company has contingency plans, as well as medical and monitoring committees implemented across all of its units and executive board.

The Company informs that, as of this date, has not observed any significant impacts on its operations, and consequently, neither on its Financial Statements. The production, commercialization and shipping forecasts remain unchanged for the time being. In addition, the execution of the Puma II Project remains within the original deadline and budget established in its approval.

Klabin values for the continuity of its business by producing and ensuring the sales of packages that fill, protect, pack and transport items of basic necessity and important for the broad population, especially those in the segments of food, medical and personal cleansing/hygiene products.

Finally, we inform that despite facing great volatility in the financial markets, Klabin counts with a significant and robust cash position, an extended debt profile and 100% of its Puma II Project already funded. Therefore, we do not see any liquidity risk for the Company at this time being.

Klabin will keep its investors and the market informed in a timely manner should there be any changes in its operations and/or results arising from the impact of COVID-19, under the terms of the ruling legislation.
